

Subject Index

A

- Actinobacillus actinomycetemcomitans*, paradoxical role of PGE₂ and cAMP on lymphocyte proliferation, 131
Adenosine monophosphate (AMP), cyclic, paradoxical role of PGE₂ and cAMP in *Actinobacillus actinomycetemcomitans* strain Y₄-induced lymphocyte proliferation, 131
Amnion, prostaglandin – cytokine interactions, amnion-derived AV3 cell line as model, 373
Angiotensin II-induced ET and PGI₂ release: mediation by PKC, 113
Apoptosis, essential fatty acids and, link with lipid peroxidation, 157
Arachidonic acid (AA)
 metabolism, modulation by eicosapentaenoic acid in rat alveolar macrophages, 51
 multiple AA metabolites inhibit sodium-dependent phosphate transport, 165
 prostaglandin and arachidonoyl CoA formed from, roles of Zn²⁺ and Cu²⁺ as modulators, 105
Arachidonoyl CoA, formation from arachidonic acid, roles of Zn²⁺ and Cu²⁺ as modulators, 105

B

- Bladder outlet obstruction, prostaglandins and cyclic nucleotides in rabbit model, 307
Bone loss due to ovariectomy, correction by oestrogen and essential fatty acid supplementation, 381

C

- Calcium
 modulation of palmitate-induced cardiomyocyte cell death by interventions altering intracellular calcium, 195
 role of extracellular calcium in cyclosporine A-induced prostacyclin release, 119
Calcium antagonists: semotiadil as inhibitor of LDL-oxidation, 183
Carcinoma cells, oesophageal, effects of polyunsaturated fatty acids and their metabolites on cell growth and tyrosine kinase activity, 171
Cell death, palmitate-induced, modulation by interventions that alter intracellular calcium, 195
Cell growth, carcinoma cells, effects of polyunsaturated fatty acids and their metabolites, 171
Colitis, trinitrobenzene-induced, protective effect of n-3 fatty acid enemas, 339
Cyclooxygenase-2, in proliferation and morphogenesis induced by TGF α in gastric epithelial cells, 315
Cyclosporine A-induced hypertension, nitric oxide in, 41
Cyclosporine A-induced prostacyclin release, maintenance by extracellular calcium: role of protein kinase C, 119
Cytokines
 prostaglandin – cytokine interactions in amnion: amnion-derived AV3 cell line as model, 373
 regulation of prostaglandin H synthase-1 transcription, 323

D

- Desaturases, effect of insulin on Δ 5 desaturation in hepG2 hepatoma cells and L6 rat muscle myoblasts, 89
Diabetes mellitus: effect of fish oil on cardiovascular risk factors in hypertensive, obese, dyslipidemic patients, 83
Diet
 docosahexaenoic acid-rich, effect on organ and vascular fatty acid composition in spontaneously hypertensive rats, 289
 early intake of long-chain polyunsaturated fatty acids related to development of low-birthweight infants, 235
 effects of altering fatty acid composition on prostaglandin synthesis and fertility, 275
 gamma-linolenic acid, dose-dependent effects on rat spleen lymphocyte functions, 19
 omega-3 and omega-6 supplements, beneficial effects on red blood cell rheology, 13
 safflower oil supplemented with sesamol, decreased production of interleukin-6 and prostaglandin E₂, 347
Docosahexaenoic acid, effect on organ and vascular fatty acid composition in spontaneously hypertensive rats, 289

E

- Eicosanoids, possible involvement in relationship between omega-3 polyunsaturated fatty acids and reduction in ventricular fibrillation, 243
Eicosapentaenoic acid
 modulation of arachidonic acid metabolism in rat alveolar macrophages, 51
 prevention of hypoxia/reoxygenation-induced abnormality in endothelial gap junctional intercellular communication, 33
Endothelial cells
 angiotensin II-induced ET and PGI₂ release mediated by PKC, 113
 endothelin-induced prostacyclin production: role of calcium, 45
 gap junctional intercellular communication, prevention of hypoxia/reoxygenation-induced abnormality through pretreatment with eicosapentaenoic acid, 33
Endothelin, angiotensin II-induced release: mediation by PKC, 113
Epidermal growth factor (EGF)
 receptor phosphorylation, effect of 13-HpODE, 137
 relationship with prostaglandin synthesis and nitric oxide in oestrogenized rat uterus, 353
Epithelial cells: involvement of cyclooxygenase-2 in proliferation and morphogenesis induced by TGF α in gastric epithelial cells, 315
Essential fatty acids *see under* Fatty acids
Evening primrose oil, effects on rat spleen lymphocyte functions, 19

F

- Fatty acids
 biosynthesis regulation as possible mechanism for mitoinhibitory effect of fumonisin B₁, 225

- dietary
 beneficial effects of omega-3 and omega-6 supplementation on red blood cell rheology, 13
 effects of alteration on prostaglandin synthesis and fertility, 275
 modulation of murine salivary gland tumor development by n-3, n-6 and n-9 fatty acids, 259
- essential
 beneficial effects on red blood cell rheology of dietary supplementation with omega-3 and omega-6, 13
 cytotoxicity of combined essential fatty acids on prostate cancer cell line, 331
 lipid peroxidation and apoptosis, 157
 oestrogen and EFA supplementation to correct bone loss due to ovariectomy, 381
 in *Plasmodium falciparum* malaria, 255
- n-3 enemas, protective effect against trinitrobenzene-induced colitis, 339
- polyunsaturated
 early intake of long-chain polyunsaturated fatty acids related to development of low-birthweight infants, 235
 effects on cell growth and tyrosine kinase activity in oesophageal carcinoma cells, 171
 inhibition of Mg^{2+} -ATPase in enterocyte basolateral membranes, 25
 omega-3 PUFAs and ventricular fibrillation: possible involvement of eicosanoids, 243
 selective retention of n-3 and n-6 fatty acids in human milk lipids in face of increasing proportions of medium chain-length (C10-14) fatty acids, 219
- Fertility, effects of altering dietary fatty acid composition, 275
- Fish oils, effect on cardiovascular risk factors in hypertensive, obese, dyslipidemic patients with and without diabetes mellitus, 83
- Fumonisin B₁, mitoinhibitory effect, regulation of fatty acid biosynthesis as possible mechanism, 225

G

- Gamma-linolenic acid: dose-dependent effects of dietary gamma-linolenic acid on rat spleen lymphocyte functions, 19
- Gap junctional intercellular communication, endothelial, prevention of hypoxia/reoxygenation-induced abnormality through pretreatment with eicosapentaenoic acid, 33
- Ghee, effect of lowering serum prostaglandins and secretion of leukotrienes by peritoneal macrophages, 249
- Global hemispheric hypoxic ischaemia, increased neural damage with prior prostaglandin E₂, D₂ and F_{2α} administration, 207

H

- High density lipoproteins: effects of PGE₁ on high density lipoprotein-phospholipid composition, 303
- 13-HpODE, augmentation of phosphorylation of EGF receptor and SHP-2, 137
- Hypertension
 cyclosporine A-induced, nitric oxide and, 41
 effect of docosahexaenoic acid on organ and vascular fatty acid composition in spontaneously hypertensive rats, 289
 effect of fish oil, 83

I

- Implantation, comparison of effects of indomethacin and NS-398, 297
- Indomethacin
 effects on implantation, 297
 inhibitory effects on endogenous prostaglandin formation in field-stimulated guinea-pig vas deferens, 363

- Infants, low-birthweight, development correlated with early intake of long-chain polyunsaturated fatty acids, 235
- Insulin, effect on $\Delta 5$ desaturation in hepG2 hepatoma cells and L6 rat muscle myoblasts, 89
- Interleukin 1-beta (IL-1 β), regulation of prostaglandin H synthase-1 transcription, 323
- Interleukin-6
 decreased production in mice fed with safflower oil diets supplemented with sesamol, 347
 synthesis, induction by prostaglandin D₂, 189
- Ischaemia, global hemispheric hypoxic *see* Global hemispheric hypoxic ischaemia
- Isoprostanes
 F₂-isoprostane excretion rate and diurnal variation in urine, 203
- vascular effects after endothelial damage, 3369

L

- Leukotriene B₄ receptor antagonists, eicosanoid-like: SB 201993, 55
- Leukotrienes, effect of ghee in decreasing secretion, 249
- Linoleic acid, metabolite 13-HpODE, augmentation of phosphorylation of EGF receptor and SHP-2, 137
- Linolenic acid: dose-dependent effects of dietary gamma-linolenic acid on rat spleen lymphocyte functions, 19
- Lipid peroxides in *Plasmodium falciparum* malaria, 255
- Lipids, milk *see* Milk lipids
- Lipoproteins *see* High density lipoproteins; Low density lipoprotein
- Low-density lipoprotein: semotiadil as inhibitor of oxidation, 183
- Lymphocytes
 dose-dependent effects of dietary gamma-linolenic acid on rat spleen lymphocyte functions, 19
 paradoxical role of PGE₂ and cAMP in *Actinobacillus actinomycetemcomitans* strain Y₄-induced lymphocyte proliferation, 131

M

- Magnesium, inhibition of Mg^{2+} -ATPase by polyunsaturated fatty acids in enterocyte basolateral membranes, 25
- Malaria, *Plasmodium falciparum* *see* *Plasmodium falciparum* malaria
- Milk lipids, selective retention of n-3 and n-6 fatty acids in face of increasing proportions of medium chain-length (C10-14) fatty acids, 219
- Myocardial infarction, acute, levels of plasma thromboxane and prostacyclin, 7

N

- Nitric oxide
 and cyclosporine A-induced hypertension, 41
 in *Plasmodium falciparum* malaria, 255
 relationship with epidermal growth factor and prostaglandin synthesis in oestrogenized rat uterus, 353
- NS-398
 effects on implantation, 297
 inhibitory effects on endogenous prostaglandin formation in field-stimulated guinea-pig vas deferens, 363
- Nucleotides, cyclic, in urinary bladder of rabbit model of partial bladder outlet obstruction, 307

O

- Oestrogen and EFA supplementation to correct bone loss due to ovariectomy, 381

- Osteoblastic cells, stimulation of cell growth by sphingolipids via MAP kinase activation, 267
 Osteoporosis, correction by oestrogen and essential fatty acid supplementation, 381

P

- Palmitate-induced cardiomyocyte cell death, modulation by interventions that alter intracellular calcium, 195
 Periodontal disease: paradoxical role of PGE₂ and cAMP in *Actinobacillus actinomycetemcomitans* strain Y₄-induced lymphocyte proliferation, 131
 Phosphate transport, sodium-dependent, inhibition by multiple arachidonic acid metabolites, 165
 Phosphoinositide signalling system in platelets of schizophrenic patients, 1 (review), 125
 effect of neuroleptic therapy, 125
 Phospholipase A₂ inhibitors, regulation of platelet-activating factor activity in human diseases, 65
 Phospholipids, effects of PGE₁ on high density lipoprotein-phospholipid composition, 303
 Placenta
 prostaglandin E₂ 9-keto reductase from bovine term placenta, 29
 prostaglandin metabolism, enzymes of, 359
Plasmodium falciparum malaria: lipid peroxides, nitric oxide and essential fatty acids in, 255
 Platelet-activating factor (PAF), regulation in human diseases by phospholipase A₂ inhibitors, PAF acetylhydrolases, PAF receptor antagonists and free radical scavengers, 65
 Pregnancy, comparison of effects of indomethacin and NS-398 on implantation, 297
 Prostacyclin
 angiotensin II-induced release: mediation by PKC, 113
 cyclosporin A-induced release, maintenance by extracellular calcium: role of protein kinase C, 119
 endothelin-induced production in rat aortic endothelial cells: role of calcium, 45
 plasma levels in acute myocardial infarction, 7
 Prostaglandin D₂ (PGD₂)
 increased neural damage to global hemispheric hypoxic ischemia by prior prostaglandin E₂, D₂ and F_{2α} administration, 207
 induction of interleukin-6 synthesis, 189
 Prostaglandin E₁ (PGE₁), effects on high density lipoprotein-phospholipid composition, 303
 Prostaglandin E₂ (PGE₂)
 decreased production in mice fed with safflower oil diets supplemented with sesamol, 347
 increased neural damage to global hemispheric hypoxic ischemia by prior prostaglandin E₂, D₂ and F_{2α} administration, 207
 paradoxical role of PGE₂ and cAMP in *Actinobacillus actinomycetemcomitans* strain Y₄-induced lymphocyte proliferation, 131
 PGE₂ 9-keto reductase from bovine term placenta, 29
 Prostaglandin F₂ (PGF₂)
 F₂-isoprostane excretion rate and diurnal variation in urine, 203
 increased neural damage to global hemispheric hypoxic ischemia by prior prostaglandin E₂, D₂ and F_{2α} administration, 207
 Prostaglandin H synthase-1, regulation of transcription by cytokines, 323
 Prostaglandin I₂ see Prostacyclin
 Prostaglandin endoperoxide H synthase, endogenous inhibitor(s), 97
 Prostaglandins
 effect of ghee in lowering serum prostaglandins, 249
 formation from arachidonic acid, roles of Zn²⁺ and Cu²⁺ as modulators, 105

- metabolism in bovine placenta, enzymes of, 359
 prostaglandin - cytokine interactions in amnion, amnion-derived AV3 cell line as model, 373
 synthesis
 effects of altering dietary fatty acid composition on prostaglandin synthesis and fertility, 275
 endogenous formation in field-stimulated guinea-pig vas deferens: comparison of inhibitory effects of indomethacin and NS-398, 363
 relationship with epidermal growth factor and nitric oxide in oestrogenized rat uterus, 353
 in urinary bladder of rabbit model of partial bladder outlet obstruction, 307
 Prostanoids, involvement in smoking-induced airway diseases (review), 145
 Prostate cancer cell line, cytotoxicity of combined essential fatty acids, 331
 Protein kinase C (PKC)
 mediation of angiotensin II-induced ET and PGI₂ release, 113
 regulation of prostaglandin D₂-induced interleukin-6 synthesis, 189
 role in cyclosporine A-induced prostacyclin release, 119

R

- Red blood cells, rheology, beneficial effects of dietary supplementation with omega-3 and omega-6, 13

S

- Salivary gland tumors, modulation of development by n-3, n-6 and n-9 dietary fatty acids, 259
 SB 201933 (eicosanoid-like LTB₄ receptor antagonist), pharmacological characterization, 55
 Schizophrenia, phosphoinositide signalling system in platelets, 1 (review), 125
 effect of neuroleptic therapy, 125
 Semotiadil as inhibitor of LDL-oxidation, 183
 Sesamol-supplemented safflower oil diets, decreased production of interleukin-6 and prostaglandin E₂, 347
 Smoking, pathophysiological effects in lung, prostanoids and (review), 145
 Sphingolipids: stimulation of cell growth by sphingolipids via MAP kinase activation in osteoblastic cells, 267

T

- Thromboxane, plasma levels in acute myocardial infarction, 7
 Transforming growth factor α (TGFα)
 induction of proliferation and morphogenesis in gastric epithelial cells, cyclooxygenase-2 in, 315
 regulation of prostaglandin H synthase-1 transcription, 323
 Trinitrobenzene-induced colitis, protective effect of n-3 fatty acid enemas, 339
 Tyrosine kinase activity in oesophageal carcinoma cells, effects of polyunsaturated fatty acids and their metabolites, 171

U

- Uterus, oestrogenized, relationship of epidermal growth factor, nitric oxide and prostaglandin synthesis, 353

V

- Vas deferens, field-stimulated, endogenous prostaglandin formation: inhibitory effects of indomethacin and NS-398, 363
 Ventricular fibrillation, omega-3 polyunsaturated fatty acids and: possible involvement of eicosanoids, 243
